

REJECT CHANGES IN CURRENCY BILL

Chamber of Commerce Votes on the Proposed Amendments as Part of the National Referendum.

The general report of proposed changes in the Owen-Glass currency bill made by the committee of the Chamber of Commerce of the United States and submitted to the directors of the South Bend chamber in a referendum vote, was rejected by the local chamber. At a meeting of the board of directors Wednesday the report of a committee which has had the matter under consideration for some time advising against supporting the proposed changes, was accepted.

This vote was on the general proposition submitted. There were several other specific changes on which an individual vote was requested. On these the directors were divided. A petition from the Handelsvertrags-Verein, a business organization of Berlin, Germany, which was presented for signature, asking the international postal congress in Madrid, 1914, to extend domestic postal rates to all countries in the postal union or at least to establish an approximate rate on all letters of the penny, English, was signed as requested.

L. M. Hammerschmidt submitted a report of the plans of the social welfare committee of the chamber for the social center work of the year, which include several union meetings in the new high school and a definite program of educational subjects to be discussed at the various centers. The sub-committee which had the currency bill referendum under consideration consisted of Timothy Howard, chairman, George V. Bingham and L. P. Hardy. Here are the individual propositions submitted and how the directors voted:

Here is the Vote.
That federal reserve banks should mutually guarantee federal service notes. **Vote YES.**
That there be created a federal reserve council, in addition to the federal reserve board, the president and vice president of the council to live in Washington and to sit at the head of the board but have no vote. **Vote NO.**

That the federal reserve board be increased to nine members, the two additional members to be chosen by the original seven, subject to the approval of the president, and the compensation of the governor and vice governor of the board to be fixed by the board itself. **Vote NO.**

That in creating the new system of federal reserve banks a beginning should be made with the present central reserve cities, three in number, additions to be made by the federal reserve board gradually, as conditions warranted. The bill now provides for a minimum of 12 reserve banks. **Vote YES.**

That restriction of issue of federal reserve notes to \$500,000,000 should be eliminated; that interest on federal reserve notes be eliminated, and that it be made unlawful for any federal reserve bank to pay out any notes except its own, the notes issued by each bank being given an identifying number. **Vote YES.**

That federal reserve notes should not be obligations of the government, but should be guaranteed by the United States, and that they be redeemable by the federal reserve banks and not at the treasury of the United States. **Vote NO.**

That the reserve requirements of the Owen-Glass bill be modified and reduced for both country banks and banks in cities. **Vote YES.**
The directors also considered a proposition by which a new industry may be obtained for South Bend. The negotiations have not progressed far enough for a definite announcement, however, according to Secy. Manning.

SMOKES TOBACCO AT 97.
SPOTSWOOD, N. J., Oct. 2.—"Uncle Jimmy" Bennett, hale and hearty, celebrated his 97th birthday here, although he has refrained from intoxicants, he is an inveterate user of tobacco in all forms.

Third Floor---Annex

WHEAT MAKES LOW RECORD FOR SEASON

Selling Pressure Due Largely to the Flood of Receipts in All Directions Forces the Price Downward.

CHICAGO, Oct. 1.—Selling pressure due largely to a flood of receipts in all directions carried wheat Wednesday to a new low price record for the season.

Despite a lively rally, closing figures were 3-8c under last night's level. Corn finished 3-8c to 7-8c down, and oats off 1-2c to 1-2-5-8c, but provisions at 21-2c to 22 1-2c advance.

Wheat prices broke 1c to 11-8c a bushel but the force of the drive at prices. Cable advices were that both Canada and Russia had lowered offers in order to bring about sales. Then came the news that northwestern receipts continued heavy, and this was followed by word that the southwestern movement had increased so that the primary arrivals as a whole surpassed even the total reached a year ago.

Corn suffered a violent decline because of belated liquidation on the part of bulls.

Oats were governed by other grain. Provisions bulged after being easy early in the session.

COPPERS MAKE BEST SHOWING OF THE DAY

Railroad Stocks Show Increases of One Point But Advance in General is Small. Recent Decline is Checked.

NEW YORK, Oct. 2.—Under the lead of the Coppers, which made the best showing of any group in the market, stocks moved upward Wednesday.

Union Pacific, Reading and Canadian Pacific rose a point each, but the advance in general was small and its chief significance lay in the fact that the decline of the previous two days was effectually checked. The demand for stocks was better, owing perhaps to the belief that the short interest had over-extended by recent selling and that the market was in a strong technical position. Business was still concentrated largely in the speculative favorites.

Unfavorable August returns for a number of the large eastern lines failed to depress the railroad stocks. New York Central and Pennsylvania both reported large shrinkages in net, and Erie made the poorest showing.

50c Box MAKE-MAN TONIC TABLETS FREE

Do you need a tonic that will give you health and strength? A tonic that will build up your nervous system, that will make plenty of rich, pure blood—that will give strength, vigor and added life?
